Nature Recovery and Renewal After Fire

Saturday 20 September | 11am

Montrose Town Centre
935 Mt Dandenong Tourist Road, Montrose

Learn how nature recovers and the stages it goes through after fire and what actions people should or shouldn't take in response.

Environmental scientist, Graeme Lorimer, will talk about the Dr Ken Leversha Reserve fire of March 2025 in the context of major bushfires, prescribed burns and the 1987 bushfire in the same reserve.

This is also an opportunity for local residents to share their experiences.

There is also a Ken Leversha Reserve walk on Sunday 21 September. Numbers are limited, bookings essential.

**Register for the talk at
