

STORMWATER DRAINAGE & WATER EXTRACTION

Key Threats to Streams of the Dandenongs

Healthy creeks are critical to our environment and for our aquatic creatures, fish, birds, flora and fauna.

Image shows stormwater outfall channel near Sassafras.

You are invited to learn more about what is happening in Sassafras Creek and other waterways in the Dandenong Ranges from an expert in the field:

Dr Chris Walsh

**School of Ecosystem and Forest Sciences
University of Melbourne**

**Tuesday 19th February, 7.30 to 9pm, at the Monbulk Hub,
21 Main St Monbulk. Attendance is Free, enter from Moores Rd.
For more information call Jane Hollands on 0412 10 11 28
email foscreek@gmail.com**

If fire danger rating is CODE RED the talk will be postponed.
